SmartFinish®

matching profiles & skirtings

SmartFinish® skirting and connecting profiles provide a beautiful finish for a XpertPro laminate floor.

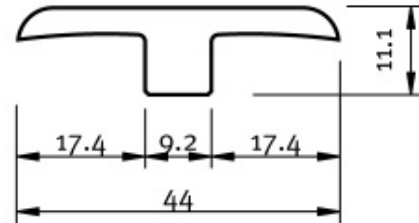

Skirting

2400 x 50 x 14 mm
94,49 x 1,96 x 0,55 inch

Skirting creates an attractive transition between laminate flooring and wall. It is also useful for hiding cables and wires. **XpertPro®** skirting boards (height 5 cm) have a rounded design and are available in various colours.

Connecting profiles

2400 x 44 x 11,1 mm
94,49 x 1,73 x 0,43 inch

A connecting profile is used to make the transition from your laminate floor to other floor coverings at the same level. It can also be used to connect laminate under door profiles. Includes PVC strip for a perfect fit.
